

BUDGET BILLING FORM

The purpose of our variable budget billing program is to help members plan their monthly energy payments. The budget billing program is available to members who receive service under the General Service Single Phase rate. All residential services are included in this rate category.

Your monthly billing statement will display the budget amount due, as well as the previous balance forward showing any debits or credits.

To enroll, you must have a good payment history and your account must have a zero balance. Members enrolled in the budget billing program are subject to the same payment due dates as regular billing accounts and must pay the full budget amount each month. If necessary, late payment fees will be assessed on the budget amount.

You must maintain a good payment history to participate in the budget billing program. If the customer fails to follow the budget billing guidelines, Boone REMC reserves the right to remove the member from the program. If a member is removed from the program, all outstanding amounts will be due under regular payment terms.

The member may withdraw from the budget billing program by giving Boone REMC notice. Upon withdrawing from the program, all amounts owed will become due and payable to Boone REMC.
