

YOU CAN CHOOSE **GREEN ENERGY** WITH **EnviroWatts**®

Our EnviroWatts green power program provides customers with an option to support alternative energy generation. When you enroll in the EnviroWatts program, you will pay \$.015 (one and one-half cents) more per kilowatt-hour in addition to our standard rate. The premium charged for EnviroWatts helps us fund the development of alternative energy sources like landfill gas generation.

Yes! Sign me up for EnviroWatts!

Name: _____

Account Number: _____

Address: _____

Phone Number: _____

I understand that energy purchased through the EnviroWatts green power program costs \$0.015 (one and one-half cents) more per kilowatt-hour compared to kilowatt-hours purchased under the standard single phase rate.
