

## **BOONE REMC**

### **Green Power Rate Rider All Customer Rate Classes**

#### CORPORATE COMMITMENT

Energy needs for customers voluntarily participating in the EnviroWatts green power program will be supplied from environmentally preferred sources such as biomass, solar, wind, water and geothermal springs. Currently those sources have a higher cost than most other sources of power. Green Power Rate Rider reflects an increased cost of one-and-one-half cents (\$.015) per kilowatt-hour.

It is our hope that as more customers across the nation choose green power, additional investments will be made in environmentally friendly generation.

#### AVAILABILITY

Available in all territory served by the Corporation, subject to the Corporation's Service Rules and Regulations.

#### APPLICABILITY

Applicable to any member of the Corporation for single-phase or multi-phase service who is located on or adjacent to the lines of the Corporation suitable and adequate for rendering the service requested.

Accounts with less than 25,000 kWh per month must agree to take the entire amount in green power. Accounts that have 25,000 kWh per month, or more, will receive the first 25,000 kWh per month in green power, and may then purchase additional green power blocks in 5,000 kWh increments.

#### MONTHLY RATE

Green Power Charge: \$0.015 per kWh additional

#### RATE ADJUSTMENT

The above rates are subject to a Purchased Power Cost Adjustment Tracking Factor, in accordance with the order of the Indiana Utility Regulatory Commission, approved December 17, 1976, in Cause No. 34614.

#### CHANGE IN FUEL COST CHARGE

This Green Power rate listed is not subject to a changing fuel cost charge component. The nature of Green Power energy sources makes the application of changes in fossil fuel costs moot.

#### NON-RECURRING CHARGES

The above rate is subject to Non-Recurring Charges. These charges are stated in the Appendix, "Provisions Applicable To All Rates, Non-Recurring Charges," pages 1 and 2, and are applicable hereto. Appendix, "Provisions Applicable To All Rates, Non-Recurring Charges," is issued and is effective on the date shown on the Appendix.

Drafted: May 28, 2008

Adopted: June 25, 2008
