

Boone REMC

A Touchstone Energy® Cooperative 

BUDGET BILLING FORM

Budget billing allows members the opportunity to avoid the seasonal highs and lows on their electric bill. This program is available to all single-phase residential members.

With the budget billing program, the payment due will reflect an amount each month based on the rolling average consumption of the prior twelve months. The budget bill will provide a stable monthly payment but the electric bill will fluctuate slightly each month as the 12-month average changes.

To participate in the budget billing program, the account must meet the following requirements:

- Members must have 12 months of consecutive consumption history with Boone REMC.
- The account must have a \$0 balance.
- The account must maintain an on-time payment status.

Members that participate in the budget billing program will be required to pay the full budgeted amount each month. Should the bill become delinquent, the account will be removed from budget billing and all outstanding amounts will become due to Boone REMC. Applications for budget billing may be resubmitted after 12 months of timely payments.

Members may withdraw from budget billing by notifying Boone REMC of your request. Upon removal of the budget program, all amounts owed will become due.
